AECOM
Notes to Consolidated Financial Statements
(unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements of AECOM (the Company) are unaudited and, in the opinion of management, include all adjustments, including all normal recurring items necessary for a fair statement of the Company's financial position and results of operations for the periods presented. All intercompany balances and transactions are eliminated in consolidation.

The consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended September 30, 2021 (the Annual Report). The accompanying unaudited consolidated financial statements and related notes have been prepared in accordance with generally accepted accounting principles (GAAP) in the United States (U.S.) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements.

The consolidated financial statements included in this report have been prepared consistently with the accounting policies described in the Annual Report, except as noted, and should be read together with the Annual Report. Certain reclassifications were made to the prior year to conform to current year presentation. Prior period's disaggregated revenue by geographic region reclassifies the India business to Europe, Middle East and Africa to conform with current operations.

The results of operations for the three and nine months ended June 30, 2022 are not necessarily indicative of the results to be expected for the fiscal year ending September 30, 2022.

As discussed in more detail in Note 3, the Company concluded that its self-perform at-risk construction businesses met the criteria for held for sale beginning in the first quarter of fiscal 2020 and met the criteria for discontinued operation classification. As a result, the self-perform at-risk construction businesses are presented in the consolidated statements of operations as discontinued operations for all periods presented. Current and non-current assets and liabilities of these businesses are presented in the consolidated balance sheets as assets and liabilities held for sale.

The Company reports its annual results of operations based on 52 or 53-week periods ending on the Friday nearest September 30. The Company reports its quarterly results of operations based on periods ending on the Friday nearest December 31, March 31, and June 30. For clarity of presentation, all periods are presented as if the periods ended on September 30, December 31, March 31, and June 30.

2. New Accounting Pronouncements and Changes in Accounting

In June 2016, the Financial Accounting Standards Board (FASB) issued a new credit loss standard that changes the impairment model for most financial assets and some other instruments. The new guidance replaces the "incurred loss" approach with an "expected loss" model for instruments measured at amortized cost. It also simplifies the accounting model for purchased credit-impaired debt securities and loans. The Company adopted the new guidance effective October 1, 2020 using a modified retrospective approach that resulted in an \$8.0 million, net of tax, reduction to retained earnings without restating comparative periods. Additional disclosures regarding the adoption can be found in Note 4.

In August 2018, the FASB issued new accounting guidance for the disclosure requirements of defined benefit pension plans. The amended guidance eliminates certain disclosure requirements that were no longer considered to be cost beneficial. The Company adopted the new guidance starting on October 1, 2021. Adoption of the new guidance did not have a significant impact on the Company's financial statements.

In December 2019, the FASB issued new accounting guidance which simplifies the accounting for income taxes. The guidance amends certain exceptions to the general principles of Accounting Standards Codification (ASC) 740, *Income Taxes*, and simplifies several areas such as accounting for a franchise tax or similar tax that is partially based on income. The Company adopted the new guidance starting on October 1, 2021. The adoption of the new guidance did not have a significant impact on the Company's consolidated financial statements.

In October 2021, the FASB issued final guidance to companies that apply ASC 606, *Revenue from Contracts with Customers*, to recognize and measure contract assets and contract liabilities from contracts with customers acquired in a business combination. The new guidance creates an exception to the general requirement to measure acquired assets and liabilities at fair value on the acquisition date. Under this exception, an acquirer applies ASC 606 to recognize and measure contract assets and contract liabilities on the acquisition date. The Company expects to adopt the new guidance starting on October 1, 2022 on a prospective basis for any business combinations the Company undertakes.

3. Discontinued Operations, Goodwill and Intangible Assets

In the first quarter of fiscal 2020, management approved a plan to dispose via sale the Company’s self-perform at-risk construction businesses. These businesses include the Company’s civil infrastructure, power, and oil and gas construction businesses that were previously reported in the Company’s Construction Services segment. After consideration of the relevant facts, the Company concluded the assets and liabilities of its self-perform at-risk construction businesses met the criteria for classification as held for sale. The Company concluded the actual and proposed disposal activities represented a strategic shift that would have a major effect on the Company’s operations and financial results and qualified for presentation as discontinued operations in accordance with FASB ASC 205-20. Accordingly, the financial results of the self-perform at-risk construction businesses are presented in the Consolidated Statement of Operations as discontinued operations for all periods presented. Current and non-current assets and liabilities of these businesses not sold as of the balance sheet date are presented in the Consolidated Balance Sheets as assets and liabilities held for sale for both periods presented.

During the first quarter of fiscal 2021, the Company completed the sale of its power construction business to CriticalPoint Capital, LLC. The Company recorded an additional pre-tax loss on the sale of \$17.3 million in fiscal 2021 related to payments for post-closing working capital adjustments.

The Company also completed the sale of its civil infrastructure construction business to affiliates of Oroco Capital in the second quarter of fiscal 2021. During the second quarter of fiscal 2021, the Company recorded a \$32.8 million loss related to the sale of its civil infrastructure construction business. In the first half of fiscal 2022, the Company recorded an additional \$43.9 million loss primarily related to revisions of estimates for its working capital obligation to be paid and a contingent consideration receivable. Under the terms of the sale agreement, the Company made the required cash payments and delivered the cash and cash equivalents, including cash in consolidated joint ventures, on the balance sheet at closing. As a result, the Company recorded the net cash impact of the sale as a use of cash in the investing section of its statement of cash flows.

On January 28, 2022, the Company completed the sale of its oil and gas construction business to affiliates of Graham Maintenance Services LP for a purchase price of \$14 million, subject to cash, debt and working capital adjustments. The Company recorded a pre-tax gain of approximately \$3.0 million on the sale, net of transaction costs.

The following table represents summarized balance sheet information of assets and liabilities held for sale (in millions):

| 2022 (three months remaining) | \$ 4.6 |
| 2023 | 18.0 |
| 2024 | 17.2 |
| 2025 | 0.6 |
| Total | \$ 40.4 |

4. Revenue Recognition

The Company follows accounting principles for recognizing revenue upon the transfer of control of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. The Company generally recognizes revenues over time as performance obligations are satisfied. The Company generally measures its progress to completion using an input measure of total costs incurred divided by total costs expected to be incurred, which it believes to be the best measure of progress towards completion of the performance obligation. In the course of providing its services, the Company routinely subcontracts for services and incurs other direct costs on behalf of its clients. These costs are passed through to clients and, in accordance with GAAP, are included in the Company's revenue and cost of revenue. These pass-through revenues for the nine months ended June 30, 2022 and 2021 were \$5.0 billion and \$5.4 billion, respectively.

Recognition of revenue and profit is dependent upon a number of factors, including the accuracy of a variety of estimates made at the balance sheet date, such as engineering progress, material quantities, the achievement of milestones, penalty provisions, labor productivity and cost estimates. Additionally, the Company is required to make estimates for the amount of consideration to be received, including bonuses, awards, incentive fees, claims, unpriced change orders, penalties, and liquidated damages. Variable consideration is included in the estimate of the transaction price only to the extent that a significant reversal would not be probable. Management continuously monitors factors that may affect the quality of its estimates, and material changes in estimates are disclosed accordingly. Costs attributable to claims are treated as costs of contract performance as incurred.

The following summarizes the Company's major contract types:

Cost Reimbursable Contracts

Cost reimbursable contracts include cost-plus fixed fee, cost-plus fixed rate, and time-and-materials price contracts. Under cost-plus contracts, the Company charges clients for its costs, including both direct and indirect costs, plus a negotiated fee or rate. The Company recognizes revenue based on actual direct costs incurred and the applicable fixed rate or portion of the fixed fee earned as of the balance sheet date. Under time-and-materials price contracts, the Company negotiates hourly billing rates and charges its clients based on the actual time that it expends on a project. In addition, clients reimburse the Company for materials and other direct incidental expenditures incurred in connection with its performance under the contract. The Company may apply a practical expedient to recognize revenue in the amount in which it has the right to invoice if its right to consideration is equal to the value of performance completed to date.

Guaranteed Maximum Price Contracts (GMP)

GMP contracts share many of the same contract provisions as cost-plus and fixed-price contracts. As with cost-plus contracts, clients are provided a disclosure of all the project costs, and a lump sum or percentage fee is separately identified. The Company provides clients with a guaranteed price for the overall project (adjusted for change orders issued by clients) and a schedule including the expected completion date. Cost overruns or costs associated with project delays in completion could generally be the Company's responsibility. For many of the Company's commercial or residential GMP contracts, the final price is generally not established until the Company has subcontracted a substantial percentage of the trade contracts with terms consistent with the master contract, and it has negotiated additional contractual limitations, such as waivers of consequential damages as well as aggregate caps on liabilities and liquidated damages. Revenue is recognized for GMP contracts as project costs are incurred relative to total estimated project costs.

Fixed-Price Contracts

Fixed-price contracts include both lump-sum and fixed-unit price contracts. Under lump-sum contracts, the Company performs all the work under the contract for a specified fee. Lump-sum contracts are typically subject to price adjustments if the scope of the project changes or unforeseen conditions arise. Under fixed-unit price contracts, the Company performs a number of units of work at an agreed price per unit with the total payment under the contract determined by the actual number of units delivered. Revenue is recognized for fixed-price contracts using the input method measured on a cost-to-cost basis.

The following tables present the Company’s revenues disaggregated by revenue sources:

| | Three months ended | | Nine months ended | |
|--------------------------|--------------------|-------------------|-------------------|-------------------|
| | June 30, 2022 | June 30, 2021 | June 30, 2022 | June 30, 2021 |
| | (in millions) | | | |
| Cost reimbursable | \$ 1,328.0 | \$ 1,309.2 | \$ 4,014.5 | \$ 4,041.8 |
| Guaranteed maximum price | 1,105.5 | 1,229.9 | 3,178.1 | 3,443.0 |
| Fixed-price | 808.2 | 869.3 | 2,529.5 | 2,502.3 |
| Total revenue | <u>\$ 3,241.7</u> | <u>\$ 3,408.4</u> | <u>\$ 9,722.1</u> | <u>\$ 9,987.1</u> |

| | Three months ended | | Nine months ended | |
|------------------------------------|--------------------|-------------------|-------------------|-------------------|
| | June 30, 2022 | June 30, 2021 | June 30, 2022 | June 30, 2021 |
| | (in millions) | | | |
| Americas | \$ 2,457.5 | \$ 2,619.0 | \$ 7,322.2 | \$ 7,645.7 |
| Europe, Middle East, India, Africa | 426.7 | 428.2 | 1,325.1 | 1,278.3 |
| Asia Pacific | 357.5 | 361.2 | 1,074.8 | 1,063.1 |
| Total revenue | <u>\$ 3,241.7</u> | <u>\$ 3,408.4</u> | <u>\$ 9,722.1</u> | <u>\$ 9,987.1</u> |

As of June 30, 2022, the Company had allocated \$21.3 billion of transaction price to unsatisfied or partially satisfied performance obligations, of which approximately 60% is expected to be satisfied within the next twelve months.

Contract liabilities represent amounts billed to clients in excess of revenue recognized to date. The Company recognized revenue of \$504.7 million and \$646.6 million during the nine months ended June 30, 2022 and 2021, respectively, that was included in contract liabilities as of September 30, 2021 and 2020, respectively.

The Company’s timing of revenue recognition may not be consistent with its rights to bill and collect cash from its clients. Those rights are generally dependent upon advance billing terms, milestone billings based on the completion of certain phases of work or when services are performed. The Company’s accounts receivables represent amounts billed to clients that have yet to be collected and represent an unconditional right to cash from its clients. Contract assets represent the amount of contract revenue recognized but not yet billed pursuant to contract terms or accounts billed after the balance sheet date. Contract liabilities represent billings as of the balance sheet date, as allowed under the terms of a contract, but not yet recognized as contract revenue pursuant to the Company’s revenue recognition policy.

Net accounts receivable consisted of the following:

| | June 30, 2022 | September 30, 2021 |
|---|-------------------|--------------------|
| | (in millions) | |
| Billed | \$ 2,019.4 | \$ 2,181.1 |
| Contract retentions | 501.4 | 531.2 |
| Total accounts receivable—gross | 2,520.8 | 2,712.3 |
| Allowance for doubtful accounts and credit losses | (81.3) | (92.8) |
| Total accounts receivable—net | <u>\$ 2,439.5</u> | <u>\$ 2,619.5</u> |

Substantially all contract assets as of June 30, 2022 and September 30, 2021 are expected to be billed and collected within twelve months, except for claims. Significant claims recorded in contract assets and other non-current assets were approximately \$140 million as of both June 30, 2022 and September 30, 2021. The asset related to the Deactivation, Demolition, and Removal Project retained from the MS Purchaser as defined in and discussed in Note 15 is presented in prepaid expense and other current assets from continuing operations in the Consolidated Balance Sheet. Contract retentions represent amounts invoiced to clients where payments have been withheld from progress payments until the contracted work has been completed and approved by the client but nonetheless represent an unconditional right to cash. These retention agreements vary from project to project and could be outstanding for several months or years.

On October 1, 2020, the Company adopted accounting pronouncements issued by the FASB regarding the changes to the way in which entities estimate credit losses for most financial assets, including accounts receivable and contract assets. The new guidance requires the Company to maintain an allowance for credit losses, which represent the portion of its financial assets that it does not

expect to collect over their contractual life. The Company considers a broad range of information to estimate expected credit losses including the related ages of past due balances, projections of credit losses based on historical trends, and collection history and credit quality of its clients. Negative macroeconomic trends or delays in payment of outstanding receivables could result in an increase in the estimated credit losses.

No single client accounted for more than 10% of the Company's outstanding receivables at June 30, 2022 and September 30, 2021.

The Company sold trade receivables to financial institutions, of which \$199.1 million and \$263.6 million were outstanding as of June 30, 2022 and September 30, 2021, respectively. The Company does not retain financial or legal obligations for these receivables that would result in material losses. The Company's ongoing involvement is limited to the remittance of customer payments to the financial institutions with respect to the sold trade receivables.

5. Joint Ventures and Variable Interest Entities

The Company's joint ventures provide architecture, engineering, program management, construction management, operations and maintenance services, and invest in real estate projects. Joint ventures, the combination of two or more partners, are generally formed for a specific project. Management of the joint venture is typically controlled by a joint venture executive committee, comprised of representatives from the joint venture partners. The joint venture executive committee normally provides management oversight and controls decisions which could have a significant impact on the joint venture.

Some of the Company's joint ventures have no employees and minimal operating expenses. For these joint ventures, which are referred to as pass-through joint ventures, the Company's employees perform work for the joint venture, which is then billed to a third-party customer by the joint venture. These joint ventures function as pass-through entities to bill the third-party customer. For consolidated joint ventures of this type, the Company records the entire amount of the services performed and the costs associated with these services, including the services provided by the other joint venture partners, in the Company's result of operations. For certain of these joint ventures where a fee is added by an unconsolidated joint venture to client billings, the Company's portion of that fee is recorded in equity in earnings of joint ventures.

The Company also has joint ventures that have their own employees and operating expenses, and to which the Company generally makes a capital contribution. The Company accounts for these joint ventures either as consolidated entities or equity method investments based on the criteria further discussed below.

The Company follows guidance on the consolidation of variable interest entities (VIEs) that requires companies to utilize a qualitative approach to determine whether it is the primary beneficiary of a VIE. The process for identifying the primary beneficiary of a VIE requires consideration of the factors that indicate a party has the power to direct the activities that most significantly impact the joint venture's economic performance, including powers granted to the joint venture's program manager, powers contained in the joint venture governing board and, to a certain extent, a company's economic interest in the joint venture. The Company analyzes its joint ventures and classifies them as either:

- a VIE that must be consolidated because the Company is the primary beneficiary or the joint venture is not a VIE and the Company holds the majority voting interest with no significant participative rights available to the other partners; or
- a VIE that does not require consolidation and is treated as an equity method investment because the Company is not the primary beneficiary or the joint venture is not a VIE and the Company does not hold the majority voting interest.

As part of the above analysis, if it is determined that the Company has the power to direct the activities that most significantly impact the joint venture's economic performance, the Company considers whether or not it has the obligation to absorb losses or rights to receive benefits of the VIE that could potentially be significant to the VIE.

Contractually required support provided to the Company's joint ventures is further discussed in Note 15.

Summary of financial information of the consolidated joint ventures is as follows:

| | June 30, 2022 (unaudited) | September 30, 2021 |
|--------------------------------------|---------------------------------|-----------------------|
| | (in millions) | |
| Current assets | \$ 523.3 | \$ 503.9 |

| Total owners' equity | 127.0 | 176.9 |
| Total liabilities and owners' equity | <u>\$ 597.3</u> | <u>\$ 578.7</u> |

Total revenue of the consolidated joint ventures was \$980.1 million and \$604.7 million for the nine months ended June 30, 2022 and 2021, respectively. The assets of the Company's consolidated joint ventures are restricted for use only by the particular joint venture and are not available for the general operations of the Company.

Summary of unaudited financial information of the unconsolidated joint ventures, as derived from their unaudited financial statements, is as follows:

| | June 30, 2022 | September 30, 2021 |
|---|-------------------|-----------------------|
| | (in millions) | |

6. Pension Benefit Obligations

In the U.S., the Company sponsors various qualified defined benefit pension plans. Benefits under these plans generally are based on the employee's years of creditable service and compensation; however, all U.S. defined benefit plans are closed to new participants and have frozen accruals.

The Company also sponsors various non-qualified plans in the U.S.; all of these plans are frozen. Outside the U.S., the Company sponsors various pension plans, which are appropriate to the country in which the Company operates, some of which are government mandated.

The components of net periodic benefit cost other than the service cost component are included in other income in the consolidated statement of operations. The following table details the components of net periodic benefit cost for the Company's pension plans for the three and nine months ended June 30, 2022 and 2021:

| | Three Months Ended | | | | Nine Months Ended | | | |
|---|--------------------|----------|---------------|----------|-------------------|----------|---------------|----------|

| Net periodic benefit cost | \$ 1.2 | \$ (2.3) | \$ 1.0 | \$ (3.0) | \$ 3.7 | \$ (7.5) | \$ 2.9 | \$ (9.0) |

The total amounts of employer contributions paid for the nine months ended June 30, 2022 were \$6.8 million for U.S. plans and \$18.2 million for non-U.S. plans. The expected remaining scheduled annual employer contributions for the fiscal year ending September 30, 2022 are \$4.4 million for U.S. plans and \$6.1 million for non-U.S. plans.

Credit Agreement

On February 8, 2021, the Company entered into the 2021 Refinancing Amendment to the Credit Agreement (the “Credit Agreement”), pursuant to which the Company amended and restated its Syndicated Credit Facility Agreement, dated as of October 17, 2014 (as amended prior to February 8, 2021, the “Original Credit Agreement”), between the Company, as borrower, Bank of America, N.A., as administrative agent, and other parties thereto. At the time of amendment, the Credit Agreement consisted of a \$1,150,000,000 revolving credit facility (the “Revolving Credit Facility”) and a \$246,968,737.50 term loan A facility (the “Term A Facility,” together with the Revolving Credit Facility, the “Credit Facilities”), each of which mature on February 8, 2026. The outstanding loans under the Term A Facility were borrowed in U.S. dollars. Loans under the Revolving Credit Facility may be borrowed, and letters of credit thereunder may be issued, in U.S. dollars or certain foreign currencies. The proceeds of the Revolving Credit Facility may be used from time to time for ongoing working capital and for other general corporate purposes. The proceeds of the Revolving Credit Facility and the Term A Loan facility borrowed on February 8, 2021 were used to refinance the existing revolving credit facility and the existing term loan facility under the Original Credit Agreement and to pay related fees and expenses. The Credit Agreement permits the Company to designate certain of its subsidiaries as additional co-borrowers from time to time. Currently, there are no co-borrowers under the Credit Facilities.

The applicable interest rate under the Credit Agreement is calculated at a per annum rate equal to, at the Company’s option, (a) the Eurocurrency Rate (as defined in the Credit Agreement) plus an applicable margin (the “LIBOR Applicable Margin”), which is currently at 1.2250% or (b) the Base Rate (as defined in the Credit Agreement) plus an applicable margin (the “Base Rate Applicable Margin” and together with the LIBOR Applicable Margin, the “Applicable Margins”), which is currently at 0.2250%. The Credit Agreement includes certain environmental, social and governance (ESG) metrics relating to the Company’s CO₂ emissions and its percentage of employees who identify as women (each, a “Sustainability Metric”). The Applicable Margins and the commitment fees for the Revolving Credit Facility will be adjusted on an annual basis based on the Company’s achievement of preset thresholds for each Sustainability Metric. The Credit Agreement contains provisions addressing the end of the use of LIBOR as a benchmark rate of interest and a mechanism for determining an alternative benchmark rate of interest. When the provisions are triggered, LIBOR would be replaced by a secured overnight financing rate (SOFR)-based rate, which will be subject to a spread adjustment which may be positive, negative or zero.

Some of the Company’s material subsidiaries (the “Guarantors”) have guaranteed the Company’s obligations of the borrowers under the Credit Agreement, subject to certain exceptions. The borrowers’ obligations under the Credit Agreement are secured by a lien on substantially all of the Company’s assets and its Guarantors’ assets, subject to certain exceptions.

The Credit Agreement contains customary negative covenants that include, among other things, limitations on the ability of the Company and certain of its subsidiaries, subject to certain exceptions, to incur liens and debt, make investments, dispositions, and restricted payments, change the nature of their business, consummate mergers, consolidations and the sale of all or substantially all of their respective assets, taken as a whole, and transact with affiliates. The Company is also required to maintain a consolidated interest coverage ratio of at least 3.00 to 1.00 and a consolidated leverage ratio of less than or equal to 4.00 to 1.00 (subject to certain adjustments in connection with permitted acquisitions), tested on a quarterly basis (the “Financial Covenants”). The Company’s consolidated leverage ratio was 2.30 to 1.00 at June 30, 2022. As of June 30, 2022, the Company was in compliance with the covenants of the Credit Agreement.

The Credit Agreement contains customary affirmative covenants, including, among other things, compliance with applicable law, preservation of existence, maintenance of properties and of insurance, and keeping proper books and records. The Credit Agreement contains customary events of default, including, among other things, nonpayment of principal, interest or fees, cross-defaults to other debt, inaccuracies of representations and warranties, failure to perform covenants, events of bankruptcy and insolvency, change of control and unsatisfied judgments, subject in certain cases to notice and cure periods and other exceptions.

On April 13, 2021, the Company entered into Amendment No. 10 to the Credit Agreement, pursuant to which the lenders thereunder provided a secured term “B” credit facility (the “Term B Facility”) to the Company in an aggregate principal amount of \$700,000,000. The Term B Facility matures on April 13, 2028. The proceeds of the Term B Facility were used to fund the purchase price, fees and expenses in connection with the Company’s cash tender offer to purchase up to \$700,000,000 aggregate purchase price (not including any accrued and unpaid interest) of its outstanding 5.875% Senior Notes due 2024.

The Term B Facility is subject to the same affirmative and negative covenants and events of default as the Term A Facility previously incurred pursuant to the existing Credit Agreement (except that the Financial Covenants in the Credit Agreement do not apply to the Term B Facility). The applicable interest rate for the Term B Facility is calculated at a per annum rate equal to, at the

Company's option, (a) the Eurocurrency Rate (as defined in the Credit Agreement) plus 1.75% or (b) the Base Rate (as defined in the Credit Agreement) plus 0.75%.

On June 25, 2021, the Company entered into Amendment No. 11 to the Credit Agreement, pursuant to which the lenders thereunder have provided to the Company an additional \$215,000,000 in aggregate principal amount under the Term A Facility. The Company used the net proceeds from the increase in the Term A Facility (together with cash on hand), to (i) redeem all of the Company's remaining 5.875% Senior Notes due 2024 and (ii) pay fees and expenses related to such redemption.

At June 30, 2022 and September 30, 2021, letters of credit totaled \$4.5 million and \$5.2 million, respectively, under the Company's Revolving Credit Facility. As of June 30, 2022 and September 30, 2021, the Company had \$1,145.5 million and \$1,144.8 million, respectively, available under its Revolving Credit Facility.

2027 Senior Notes

On February 21, 2017, the Company completed a private placement offering of \$1,000,000,000 aggregate principal amount of its unsecured 5.125% Senior Notes due 2027 (the "2027 Senior Notes"). On June 30, 2017, the Company completed an exchange offer to exchange the unregistered 2027 Senior Notes for registered notes, as well as related guarantees.

As of June 30, 2022, the estimated fair value of the 2027 Senior Notes was approximately \$935.0 million. The fair value of the 2027 Senior Notes as of June 30, 2022 was derived by taking the mid-point of the trading prices from an observable market input (Level 2) in the secondary bond market and multiplying it by the outstanding balance of the 2027 Senior Notes. Interest is payable on the 2027 Senior Notes at a rate of 5.125% per annum. Interest on the 2027 Senior Notes is payable semi-annually on March 15 and September 15 of each year, commencing on September 15, 2017. The 2027 Senior Notes will mature on March 15, 2027.

At any time and from time to time prior to December 15, 2026, the Company may redeem all or part of the 2027 Senior Notes, at a redemption price equal to 100% of their principal amount, plus a "make whole" premium as of the redemption date, and accrued and unpaid interest to the redemption date. On or after December 15, 2026, the Company may redeem all or part of the 2027 Senior Notes at a redemption price equal to 100% of their principal amount, plus accrued and unpaid interest to the redemption date.

The indenture pursuant to which the 2027 Senior Notes were issued contains customary events of default, including, among other things, payment default, exchange default, failure to provide notices thereunder and provisions related to bankruptcy events. The indenture also contains customary negative covenants.

The Company was in compliance with the covenants relating to the 2027 Senior Notes as of June 30, 2022.

Other Debt

Other debt consists primarily of obligations under finance leases and loans and unsecured credit facilities.

Effective Interest Rate

The Company's average effective interest rate on its total debt, including the effects of the interest rate swap agreements, during the nine months ended June 30, 2022 and 2021 was 3.4% and 4.7%, respectively.

Interest expense in the consolidated statements of operations included amortization of deferred debt issuance costs for the three and nine months ended June 30, 2022 of \$1.2 million and \$3.7 million, respectively, and for the three and nine months ended June 30, 2021 of \$4.6 million and \$9.0 million, respectively.

8. Derivative Financial Instruments and Fair Value Measurements

The Company uses interest rate derivative contracts to hedge interest rate exposures on the Company's variable rate debt. The Company enters into foreign currency derivative contracts with financial institutions to reduce the risk that its cash flows and earnings will be adversely affected by foreign currency exchange rate fluctuations. The Company's hedging program is not designated for trading or speculative purposes.

The Company recognizes derivative instruments as either assets or liabilities on the accompanying consolidated balance sheets at fair value. The Company records changes in the fair value (i.e., gains or losses) of the derivatives that have been designated as

accounting hedges in the accompanying consolidated statements of operations as cost of revenue, interest expense or to accumulated other comprehensive loss in the accompanying consolidated balance sheets.

Cash Flow Hedges

The Company uses interest rate swap and interest rate cap agreements designated as cash flow hedges to limit exposure to variable interest rates on portions of the Company's debt. The Company initially reports any gain on the effective portion of a cash flow hedge as a component of accumulated other comprehensive loss. Depending on the type of cash flow hedge, the gain is subsequently reclassified against interest expense when the interest expense on the variable rate debt is recognized. If the hedged transaction becomes probable of not occurring, any gain or loss related to interest rate swap or interest rate cap agreements would be recognized in other income.

The notional principal, fixed rates and related effective and expiration dates of the Company's outstanding interest rate swap agreements were as follows:

| June 30, 2022 | | | | |
|-------------------------------------|--|-----------------------|---------------------------|----------------------------|
| Notional Amount Currency | Notional Amount (in millions) | Fixed Rate | Effective Date | Expiration Date |
| USD | 200.0 | 2.60% | March 2018 | February 2023 |
| USD | 400.0 | 1.349% | February 2023 | March 2028 |

| September 30, 2021 | | | | |
|-------------------------------------|--|-----------------------|---------------------------|----------------------------|
| Notional Amount Currency | Notional Amount (in millions) | Fixed Rate | Effective Date | Expiration Date |
| USD | 200.0 | 2.60% | March 2018 | February 2023 |
| USD | 400.0 | 1.349% | February 2023 | March 2028 |

In the fourth quarter of fiscal 2021, the Company entered into new interest rate swap agreements with a notional value of \$400.0 million to manage the interest rate exposure of its variable rate loans. The new swaps will become effective February 2023 and terminate in March 2028. By entering into the swap agreements, the Company converted a portion of the LIBOR rate-based liability into a fixed rate liability. The Company will pay a fixed rate of 1.349% and receive payment at the prevailing one-month LIBOR.

In the third quarter of fiscal 2022, the Company purchased interest rate cap agreements with a notional value of \$300.0 million to manage interest rate exposure of its variable rate loans. The caps became effective on June 30, 2022 and terminate in March 2028. The caps reduce the Company's exposure to one-month LIBOR. In the event one-month LIBOR exceeds 3.5%, the Company will pay a fixed rate of 3.5% and receive payment at the prevailing one-month LIBOR.

Other Foreign Currency Forward Contracts

The Company uses foreign currency forward contracts which are not designated as accounting hedges to hedge intercompany transactions and other monetary assets or liabilities denominated in currencies other than the functional currency of a subsidiary. Gains and losses on these contracts were not material for the nine months ended June 30, 2022 and 2021.

Fair Value Measurements

The Company's non-pension financial assets and liabilities recorded at fair value relate to the interest rate swap and interest rate cap agreements included in other current assets, other non-current assets, other current liabilities, and other long-term liabilities on June 30, 2022 and were \$3.5 million, \$23.7 million, \$1.7 million, and \$3.2 million, respectively. The fair values of the interest rate swap agreements included in other non-current assets, other current liabilities, and other long-term liabilities on September 30, 2021 were \$1.2 million, \$5.0 million, and \$1.8 million, respectively. The fair values of the interest rate swap and interest rate cap agreements were derived by taking the net present value of the expected cash flows using observable market inputs (Level 2) such as LIBOR or SOFR rate curves, futures, volatilities and basis spreads (when applicable).

See Note 14 for accumulated balances and reporting period activities of derivatives related to reclassifications out of accumulated other comprehensive loss for the nine months ended June 30, 2022 and 2021. Additionally, there were no material losses recognized in income due to amounts excluded from effectiveness testing from the Company's interest rate swap agreements.

9. Share-based Payments

The fair value of the Company's employee stock option awards is estimated on the date of grant. The expected term of awards granted represents the period of time the awards are expected to be outstanding. The risk-free interest rate is based on U.S. Treasury bond rates with maturities equal to the expected term of the stock option on the grant date. The Company uses historical data as a basis to estimate the probability of forfeitures.

Stock option activity for the nine months ended June 30 was as follows:

| | 2022 | | 2021 | |
|---|---|---------------------------------|---|---------------------------------|
| | Shares of stock under options (in millions) | Weighted average exercise price | Shares of stock under options (in millions) | Weighted average exercise price |
| Outstanding at September 30 | 0.3 | \$ 38.72 | 0.4 | \$ 36.41 |
| Options granted | — | — | — | — |
| Options exercised | — | — | (0.1) | 31.62 |
| Options forfeited or expired | — | — | — | — |
| Outstanding at June 30 | <u>0.3</u> | <u>38.72</u> | <u>0.3</u> | <u>38.72</u> |
| Vested and expected to vest in the future as of June 30 | <u>0.2</u> | <u>\$ 38.72</u> | <u>0.2</u> | <u>\$ 38.72</u> |

The Company grants stock units to employees under its Performance Earnings Program (PEP), whereby units are earned and issued dependent upon meeting established cumulative performance objectives and vest over a three-year service period. Additionally, the Company issues restricted stock units to employees which are earned based on service conditions. The grant date fair value of PEP awards and restricted stock unit awards is that day's closing market price of the Company's common stock. The weighted average grant date fair value of PEP awards was \$85.46 and \$52.76 during the nine months ended June 30, 2022 and 2021, respectively. The weighted average grant date fair value of restricted stock unit awards was \$74.30 and \$49.21 during the nine months ended June 30, 2022 and 2021, respectively. Total compensation expense related to these share-based payments including stock options was \$27.4 million and \$36.2 million during the nine months ended June 30, 2022 and 2021, respectively. Unrecognized compensation expense related to total share-based payments outstanding as of June 30, 2022 and September 30, 2021 was \$54.4 million and \$45.6 million, respectively, to be recognized on a straight-line basis over the awards' respective vesting periods which are generally three years.

10. Income Taxes

The Company's effective tax rate was 26.0% and 16.6% for the nine months ended June 30, 2022 and 2021, respectively. The most significant items contributing to the difference between the statutory U.S. federal corporate tax rate of 21.0% and the Company's effective tax rate for the nine-month period ended June 30, 2022 were a tax benefit of \$36.4 million related to income tax credits and incentives, tax expense of \$31.4 million related to foreign residual income, tax expense of \$16.4 million related to state income taxes, tax expense of \$15.7 million related to uncertain tax positions, tax expense of \$11.9 million related to nondeductible costs, and tax benefit of \$11.6 million related to changes in valuation allowances. All of these items are expected to have a continuing impact on the effective tax rate for the remainder of the fiscal year except for the one-time changes in valuation allowances and uncertain tax positions.

The most significant items contributing to the difference between the statutory U.S. federal corporate tax rate of 21.0% and the Company's effective tax rate for the nine-month period ended June 30, 2021 were a tax benefit of \$39.0 million related to income tax credits and incentives, a tax benefit of \$25.9 million related to a corporate tax rate change in the United Kingdom, a tax expense of \$30.7 million related to foreign residual income, a tax expense of \$13.2 million related to an audit settlement, and a tax expense of \$11.5 million related to state income taxes.

During the nine-month period ended June 30, 2022, valuation allowances in the amount of \$21.9 million primarily related to net operating losses in certain foreign entities were released due to sufficient positive evidence obtained during the first quarter. The positive evidence included a realignment of the Company's global transfer pricing methodology that was implemented during the first quarter which resulted in forecasting the utilization of the net operating losses within the foreseeable future.

During the nine-month period ended June 30, 2022, valuation allowances in the amount of \$6.4 million on the net deferred tax assets of the Company's Russia business were recorded due to the Company exiting all business operations in Russia. It is now more likely than not the net deferred tax assets will not be realized.

During the third quarter of fiscal 2021, the United Kingdom enacted a corporate tax rate increase from 19% to 25% beginning April 2023 requiring deferred tax assets and liabilities to be remeasured. The remeasurement resulted in a \$25.9 million tax benefit.

During the third quarter of fiscal 2021, the Company partially settled its U.S. federal audit for fiscal 2015 and 2016 and recorded tax expense of \$13.2 million due primarily to changes in tax attributes.

The Company is utilizing the annual effective tax rate method under ASC 740 to compute its interim tax provision. The Company's effective tax rate fluctuates from quarter to quarter due to various factors including the change in the mix of global income and expenses, outcomes of administrative audits, changes in the assessment of valuation allowances due to management's consideration of new positive or negative evidence during the quarter, and changes in enacted tax laws. The U.S. and many international legislative and regulatory bodies have proposed legislation that could significantly impact how our business activities are taxed. These proposed changes could have a material impact on the Company's income tax expense and deferred tax balances.

The Company is currently under tax audit in several jurisdictions including the U.S. and believes the outcomes which are reasonably possible within the next twelve months, including lapses in statutes of limitations, could result in future adjustments, but will not result in a material change in the liability for uncertain tax positions.

Generally, the Company does not provide for U.S. taxes or foreign withholding taxes on gross book-tax differences in its non-U.S. subsidiaries because such basis differences of approximately \$1.5 billion are able to and intended to be reinvested indefinitely. If these basis differences were distributed, foreign tax credits could become available under current law to partially or fully reduce the resulting U.S. income tax liability. There may also be additional U.S. or foreign income tax liability upon repatriation, although the calculation of such additional taxes is not practicable.

11. Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income attributable to AECOM by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income attributable to AECOM by the weighted average number of common shares outstanding and potential common shares for the period. The Company includes as potential common shares the weighted average dilutive effects of equity awards using the treasury stock method. For the three and nine months ended June 30, 2022 and 2021, equity awards excluded from the calculation of potential common shares were not significant.

The following table sets forth a reconciliation of the denominators for basic and diluted earnings per share:

| | <u>Three Months Ended</u> | | <u>Nine Months Ended</u> | |
|--|---------------------------|-----------------|--------------------------|-----------------|
| | <u>June 30,</u> | <u>June 30,</u> | <u>June 30,</u> | <u>June 30,</u> |
| | <u>2022</u> | <u>2021</u> | <u>2022</u> | <u>2021</u> |
| | <u>(in millions)</u> | | | |
| Denominator for basic earnings per share | 140.6 | 146.1 | 141.1 | 148.4 |
| Potential common shares | 1.6 | 2.8 | 2.0 | 2.3 |
| Denominator for diluted earnings per share | <u>142.2</u> | <u>148.9</u> | <u>143.1</u> | <u>150.7</u> |

12. Leases

The Company and its subsidiaries are lessees in non-cancelable leasing agreements for office buildings and equipment. Substantially all of the Company's office building leases are operating leases, and its equipment leases are both operating and finance leases. The Company groups lease and non-lease components for its equipment leases into a single lease component but separates lease and non-lease components for its office building leases.

The Company recognizes a right-of-use asset and lease liability for its operating leases at the commencement date equal to the present value of the contractual minimum lease payments over the lease term. The present value is calculated using the rate implicit in the lease, if known, or the Company's incremental secured borrowing rate. The discount rate used for operating leases is primarily determined based on an analysis of the Company's incremental secured borrowing rate, while the discount rate used for finance leases is primarily determined by the rate specified in the lease.

[Table of Contents](#)

The related lease payments are expensed on a straight-line basis over the lease term, including, as applicable, any free-rent period during which the Company has the right to use the asset. For leases with renewal options where the renewal is reasonably assured, the lease term, including the renewal period, is used to determine the appropriate lease classification and to compute periodic rental expense. Leases with initial terms shorter than 12 months are not recognized on the balance sheet, and lease expense is recognized on a straight-line basis.

The components of lease expenses are as follows:

| | Three Months Ended | | Nine Months Ended | |
|-------------------------------------|--------------------|----------------|-------------------|-----------------|
| | June 30, 2022 | June 30, 2021 | June 30, 2022 | June 30, 2021 |

13. Other Financial Information

Accrued expenses and other current liabilities consist of the following:

| | June 30, 2022 | September 30, 2021 |
|-------------------------------|-------------------|-----------------------|
| | (in millions) | |
| Accrued salaries and benefits | \$ 659.5 | \$ 661.8 |
| Accrued contract costs | 1,250.6 | 1,202.1 |
| Other accrued expenses | 348.9 | 310.3 |
| | <u>\$ 2,259.0</u> | <u>\$ 2,174.2</u> |

Accrued contract costs above include balances related to professional liability accruals of \$751.2 million and \$736.4 million as of June 30, 2022 and September 30, 2021, respectively. The remaining accrued contract costs primarily relate to costs for services provided by subcontractors and other non-employees for which the Company has not received an invoice. Liabilities recorded related to accrued contract losses were not material as of June 30, 2022 and September 30, 2021. The Company did not have material revisions to estimates for contracts where revenue is recognized using the input method during the nine months ended June 30, 2022 and 2021. During the first nine months of fiscal 2022, the Company incurred restructuring expenses of \$88.9 million, of which \$69.1 million was related to the exit of our Russia-related businesses and is discussed further below. The remaining \$19.8 million related to actions to improve margins and deliver efficiencies. These expenses included personnel and other costs of \$16.5 million and real estate costs of \$3.3 million, of which \$1.1 million was accrued and unpaid at June 30, 2022. During the first nine months of fiscal 2021, the Company incurred restructuring expenses of \$34.8 million, including personnel and other costs of \$25.8 million and real estate costs of \$9.0 million, of which \$6.5 million was accrued and unpaid at June 30, 2021.

In March 2022, the Company substantially completed the previously announced exit of all business operations in Russia. The Company incurred a \$69.1 million pre-tax expense during the three-month period ended March 31, 2022 related to the exit of its Russia-related businesses, which comprised of asset impairment charges, personnel and real estate costs, of which \$3.8 million was accrued and unpaid at June 30, 2022. Approximately \$19.5 million of that expense was due to the recognition in earnings of the Company's cumulative translation adjustment related to the Russian ruble, which was previously reported as a component of Stockholders' Equity. The financial contribution to the Company from its business related to Russia was not material.

On June 8, 2022, the Company's Board of Directors declared a quarterly cash dividend of \$0.15 per share, which was paid on July 22, 2022 to stockholders of record as of July 6, 2022. As of June 30, 2022, accrued and unpaid dividends totaled \$21.9 million and were classified within other accrued expenses on the consolidated balance sheet.

14. Reclassifications out of Accumulated Other Comprehensive Loss

The accumulated balances and reporting period activities for the three and nine months ended June 30, 2022 and 2021 related to reclassifications out of accumulated other comprehensive loss are summarized as follows (in millions):

15. Commitments and Contingencies

The Company records amounts representing its probable estimated liabilities relating to claims, guarantees, litigation, audits and investigations. The Company relies in part on qualified actuaries to assist it in determining the level of reserves to establish for insurance-related claims that are known and have been asserted against it, and for insurance-related claims that are believed to have been incurred based on actuarial analysis, but have not yet been reported to the Company's claims administrators as of the respective balance sheet dates. The Company includes any adjustments to such insurance reserves in its consolidated results of operations. The Company's reasonably possible loss disclosures are presented on a gross basis prior to the consideration of insurance recoveries. The Company does not record gain contingencies until they are realized. In the ordinary course of business, the Company may not be aware that it or its affiliates are under investigation and may not be aware of whether or not a known investigation has been concluded.

In the ordinary course of business, the Company may enter into various arrangements providing financial or performance assurance to clients, lenders, or partners. Such arrangements include standby letters of credit, surety bonds, and corporate guarantees to support the creditworthiness or the project execution commitments of its affiliates, partnerships and joint ventures. The Company's unsecured credit arrangements are used for standby letters of credit issued in connection with general and professional liability insurance programs and for contract performance guarantees. At June 30, 2022 and September 30, 2021, these outstanding standby letters of credit totaled \$640.9 million and \$478.5 million, respectively. As of June 30, 2022, the Company had \$438.1 million available under these unsecured credit facilities. Performance arrangements typically have various expiration dates ranging from the completion of the project contract and extending beyond contract completion in some circumstances such as for warranties. The Company may also guarantee that a project, when complete, will achieve specified performance standards. If the project subsequently fails to meet guaranteed performance standards, the Company may incur additional costs, pay liquidated damages or be held responsible for the costs incurred by the client to achieve the required performance standards. The potential payment amount of an outstanding performance arrangement is typically the remaining cost of work to be performed by or on behalf of third parties. Generally, under joint venture arrangements, if a partner is financially unable to complete its share of the contract, the other partner(s) may be required to complete those activities.

At June 30, 2022, the Company was contingently liable in the amount of approximately \$645.4 million in issued standby letters of credit and \$3.7 billion in issued surety bonds primarily to support project execution.

In the ordinary course of business, the Company enters into various agreements providing financial or performance assurances to clients on behalf of certain unconsolidated partnerships, joint ventures and other jointly executed contracts. These agreements are entered into primarily to support the project execution commitments of these entities.

The Company's investment adviser jointly manages and sponsors the AECOM-Canyon Equity Fund, L.P. (the "Fund"), in which the Company indirectly holds an equity interest and has an ongoing capital commitment to fund investments. At June 30, 2022, the Company has capital commitments of \$15.3 million to the Fund over the next 7 years.

In addition, in connection with the investment activities of AECOM Capital, the Company provides guarantees of certain contractual obligations, including guarantees for completion of projects, repayment of debt, environmental indemnity obligations and other lender required guarantees.

Department of Energy Deactivation, Demolition, and Removal Project

A former affiliate of the Company, Amentum Environment & Energy, Inc., f/k/a AECOM Energy and Construction, Inc. ("Former Affiliate"), executed a cost-reimbursable task order with the Department of Energy (DOE) in 2007 to provide deactivation, demolition and removal services at a New York State project site that, during 2010, experienced contamination and performance issues. In February 2011, the Former Affiliate and the DOE executed a Task Order Modification that changed some cost-reimbursable contract provisions to at-risk. The Task Order Modification, including subsequent amendments, required the DOE to pay all project costs up to \$106 million, required the Former Affiliate and the DOE to equally share in all project costs incurred from \$106 million to \$146 million, and required the Former Affiliate to pay all project costs exceeding \$146 million.

Due to unanticipated requirements and permitting delays by federal and state agencies, as well as delays and related ground stabilization activities caused by Hurricane Irene in 2011, the Former Affiliate was required to perform work outside the scope of the Task Order Modification. In December 2014, the Former Affiliate submitted an initial set of claims against the DOE pursuant to the Contracts Disputes Acts seeking recovery of \$103 million, including additional fees on changed work scope (the "2014 Claims"). On December 6, 2019, the Former Affiliate submitted a second set of claims against the DOE seeking recovery of an additional \$60.4 million, including additional project costs and delays outside the scope of the contract as a result of differing site and ground conditions (the "2019 Claims"). The Former Affiliate also submitted three alternative breach of contract claims to the 2014 and 2019 Claims that may entitle the Former Affiliate to recovery of \$148.5 million to \$329.4 million. On December 30, 2019, the DOE denied the Former Affiliate's 2014 Claims. On September 25, 2020, the DOE denied the Former Affiliate's 2019 Claims. The Company filed an appeal of these decisions on December 20, 2020 in the Court of Federal Claims. Deconstruction, decommissioning and site restoration activities are complete.

On January 31, 2020, the Company completed the sale of its Management Services business, including the Former Affiliate who worked on the DOE project, to Maverick Purchaser Sub LLC (MS Purchaser), an affiliate of American Securities LLC and Lindsay Goldberg LLC. The Company and the MS Purchaser agreed that all future DOE project claim recoveries and costs will be split 10% to the MS Purchaser and 90% to the Company with the Company retaining control of all future strategic legal decisions.

The Company intends to vigorously pursue all claimed amounts but can provide no certainty that the Company will recover 2014 Claims and 2019 Claims submitted against the DOE, or any additional incurred claims or costs, which could have a material adverse effect on the Company's results of operations.

New York Department of Environmental Conservation

In September 2017, AECOM USA, Inc. was advised by the New York State Department of Environmental Conservation (DEC) of allegations that it committed environmental permit violations pursuant to the New York Environmental Conservation Law (ECL) associated with AECOM USA, Inc.'s oversight of a stream restoration project for Schoharie County which could result in substantial penalties if calculated under the ECL's maximum civil penalty provisions. AECOM USA, Inc. disputes this claim and intends to continue to defend this matter vigorously; however, AECOM USA, Inc. cannot provide assurances that it will be successful in these efforts. The potential range of loss in excess of any current accrual cannot be reasonably estimated at this time primarily because the matter involves complex and unique environmental and regulatory issues; the project site involves the oversight and involvement of various local, state and federal government agencies; there is substantial uncertainty regarding any alleged damages; and the matter is in its preliminary stages.

Refinery Turnaround Project

A Former Affiliate of the Company entered into an agreement to perform turnaround maintenance services during a planned shutdown at a refinery in Montana in December 2017. The turnaround project was completed in February 2019. Due to circumstances outside of the Company's Former Affiliate's control, including client directed changes and delays and the refinery's condition, the Company's Former Affiliate performed additional work outside of the original contract over \$90 million and is entitled to payment from the refinery owner of approximately \$144 million. In March 2019, the refinery owner sent a letter to the Company's Former Affiliate alleging it incurred approximately \$79 million in damages due to the Company's Former Affiliate's project performance. In April 2019, the Company's Former Affiliate filed and perfected a \$132 million construction lien against the refinery for unpaid labor and materials costs. In August 2019, following a subcontractor complaint filed in the Thirteen Judicial District Court of Montana asserting claims against the refinery owner and the Company's Former Affiliate, the refinery owner crossclaimed against the Company's Former Affiliate and the subcontractor. In October 2019, following the subcontractor's dismissal of its claims, the Company's Former Affiliate removed the matter to federal court and cross claimed against the refinery owner. In December 2019, the refinery owner claimed \$93.0 million in damages and offsets against the Company's Former Affiliate.

On January 31, 2020, the Company completed the sale of its Management Services business, including the Former Affiliate, to the MS Purchaser; however, the Refinery Turnaround Project, including related claims and liabilities, has been retained by the Company.

The Company intends to vigorously prosecute and defend this matter; however, the Company cannot provide assurance that the Company will be successful in these efforts. The resolution of this matter and any potential range of loss cannot be reasonably determined or estimated at this time, primarily because the matter raises complex legal issues that Company is continuing to assess.

16. Reportable Segments

The Company's reportable segments are presented according to their geographic regions and business activities. The Americas segment provides planning, consulting, architectural and engineering design services, and construction management services to commercial and government clients in the United States, Canada, and Latin America, while the International segment provides similar professional services to commercial and government clients in Europe, the Middle East, India, Africa, and the Asia-Pacific regions.

The Company's AECOM Capital (ACAP) segment primarily invests in and develops real estate projects. These reportable segments are organized by the differing specialized needs of the respective clients, and how the Company manages its business. The Company has aggregated various operating segments into its reportable segments based on their similar characteristics, including similar long term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

The following tables set forth summarized financial information concerning the Company's reportable segments:

Item 2. Management's Discussion And Analysis Of Financial Condition And Results Of Operations

Forward-Looking Statements

This Quarterly Report contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that are not limited to historical facts, but reflect the Company's current beliefs, expectations or intentions regarding future events. These statements include forward-looking statements with respect to the Company, including the Company's business, operations and strategy, and the engineering and construction industry. Statements that are not historical facts, without limitation, including statements that use terms such as "anticipates," "believes," "expects," "estimates," "intends," "may," "plans," "potential," "projects," and "will" and that relate to future impacts caused by the Covid-19 coronavirus pandemic and the related economic instability and market volatility, including the reaction of governments to the coronavirus, including any prolonged period of travel, commercial or other similar restrictions, the delay in commencement, or temporary or permanent halting of construction, infrastructure or other projects, requirements that we remove our employees or personnel from the field for their protection, and delays or reductions in planned initiatives by our governmental or commercial clients or potential clients; future revenues, expenditures and business trends; future reduction of our self-perform at-risk construction exposure; future accounting estimates; future contractual performance obligations; future conversions of backlog; future capital allocation priorities including common stock repurchases, future trade receivables, future debt pay downs; future post-retirement expenses; future tax benefits and expenses, and the impact of future tax laws; future compliance with regulations; future legal claims and insurance coverage; future effectiveness of our disclosure and internal controls over financial reporting; future costs savings; and other future economic and industry conditions, are forward-looking statements. In light of the risks and uncertainties inherent in all forward-looking statements, the inclusion of such statements in this Quarterly Report should not be considered as a representation by us or any other person that our objectives or plans will be achieved. Although management believes that the assumptions underlying the forward-looking statements are reasonable, these assumptions and the forward-looking statements are subject to various factors, risks and uncertainties, many of which are beyond our control, including, but not limited to, our business is cyclical and vulnerable to economic downturns and client spending reductions; government shutdowns; long-term government contracts and subject to uncertainties related to government contract appropriations; governmental agencies may modify, curtail or terminate our contracts; government contracts are subject to audits and adjustments of contractual terms; losses under fixed-price contracts; limited control over operations run through our joint venture entities; liability for misconduct by our employees or consultants; failure to comply with laws or regulations applicable to our business; maintaining adequate surety and financial capacity; potential high leverage and inability to service our debt and guarantees; ability to continue payment of dividends; exposure to political and economic risks in different countries, including tariffs; currency exchange rate and interest fluctuations; retaining and recruiting key technical and management personnel; legal claims; inadequate insurance coverage; environmental law compliance and inadequate nuclear indemnification; unexpected adjustments and cancellations related to our backlog; partners and third parties who may fail to satisfy their legal obligations; managing pension costs; AECOM Capital's real estate development; cybersecurity issues, IT outages and data privacy; risks associated with the benefits and costs of the sale of our Management Services and self-perform at-risk civil infrastructure, power construction, and oil and gas construction businesses, including the risk that any purchase adjustments from those transactions could be unfavorable and any future proceeds owed to us as part of the transactions could be lower than we expect; as well as other additional risks and factors discussed in this Quarterly Report on Form 10-Q and any subsequent reports we file with the SEC. Accordingly, actual results could differ materially from those contemplated by any forward-looking statement.

All subsequent written and oral forward-looking statements concerning the Company or other matters attributable to the Company or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above. You are cautioned not to place undue reliance on these forward-looking statements, which speak only to the date they are made. The Company is under no obligation (and expressly disclaims any such obligation) to update or revise any forward-looking statement that may be made from time to time, whether as a result of new information, future developments or otherwise. Please review "Part II, Item 1A—Risk Factors" in this Quarterly Report for a discussion of the factors, risks and uncertainties that could affect our future results.

Overview

We are a leading global provider of professional infrastructure consulting services for governments, businesses and organizations throughout the world. We provide advisory, planning, consulting, architectural and engineering design, construction and program management services, and investment and development services to commercial and government clients worldwide in major end markets such as transportation, facilities, water, environmental, and energy.

Our business focuses primarily on providing fee-based knowledge-based services. We primarily derive income from our ability to generate revenue and collect cash from our clients through the billing of our employees' time spent on client projects and our ability to manage our costs. AECOM Capital primarily derives its income from real estate development sales and management fees.

We report our continuing business through three segments, each of which is described in further detail below: Americas, International, and AECOM Capital (ACAP). Such segments are organized by the differing specialized needs of the respective clients and how we manage the business. We have aggregated various operating segments into our reportable segments based on their similar characteristics, including similar long-term financial performance, the nature of services provided, internal processes for delivering those services, and types of customers.

- *Americas*: Planning, consulting, architectural and engineering design, construction management and program management services to commercial and government clients in the United States, Canada, and Latin America in major end markets such as transportation, water, government, facilities, environmental, and energy.
- *International*: Planning, consulting, architectural and engineering design services and program management to commercial and government clients in Europe, the Middle East, India, Africa and the Asia-Pacific regions in major end markets such as transportation, water, government, facilities, environmental, and energy.
- *AECOM Capital (ACAP)*: Invests primarily in and develops real estate projects.

Our revenue is dependent on our ability to attract and retain qualified and productive employees, identify business opportunities, allocate our labor resources and capital to profitable and high growth markets, secure new contracts, and renew existing client agreements. Demand for our services may be vulnerable to sudden economic downturns and reductions in government and private industry spending, which may result in clients delaying, curtailing or canceling proposed and existing projects. Moreover, as a professional services company, maintaining the high quality of the work generated by our employees is integral to our revenue generation and profitability.

Our costs consist primarily of the compensation we pay to our employees, including salaries, fringe benefits, the costs of hiring subcontractors, other project-related expenses and sales, general and administrative costs.

Regarding our capital allocation policy, on September 22, 2021, the Board approved an increase in our stock repurchase authorization to \$1.0 billion. At June 30, 2022, we have approximately \$632 million remaining of the Board's repurchase authorization. We intend to deploy future available cash towards dividends and stock repurchases consistent with our capital allocation policy.

We have exited substantially all of our self-perform at-risk construction businesses and divested our remaining non-core oil and gas businesses in January 2022. As part of our ongoing plan to improve profitability and maintain a reduced risk profile, we continuously evaluate our geographic exposure. In March 2022, we substantially completed our exit of all business operations in Russia consistent with our announcement on March 7, 2022.

We expect to incur restructuring costs of approximately \$20 million to \$30 million in fiscal 2022, primarily related to previously announced restructuring actions that are expected to deliver continued margin improvement and efficiencies. Additionally, we expect restructuring costs of approximately \$70 million to \$80 million related to our exit of our Russia-related businesses. Total cash costs are expected to be approximately \$20 million to \$30 million for restructuring actions related to efficiencies and margin improvements and approximately \$10 million related to the exit of our Russia-related businesses.

Covid-19 Coronavirus Impacts

The impact of the coronavirus pandemic and measures to prevent its spread are affecting our businesses in a number of ways:

- The coronavirus and accompanying economic effects may reduce demand for our services and impact client spending in certain circumstances; which could in turn adversely impact our business, financial condition, results of operations, cash flows, liquidity and ability to satisfy our debt service obligations and to pay dividends; however, the uncertain nature of the coronavirus and its duration make it difficult for us to predict and quantify such impact.
- We have required or facilitated employees to work remotely where appropriate.

- The coronavirus has made estimating the future performance of our business and mitigating the adverse financial impact of these developments on our business operations more difficult.
- Certain markets in Asia are experiencing project delays that have impacted our performance and results.

Revenue

Our revenue for the three months ended June 30, 2022 decreased \$166.7 million, or 4.9%, to \$3,241.7 million as compared to \$3,408.4 million for the corresponding period last year.

Our revenue for the nine months ended June 30, 2022 decreased \$265.0 million, or 2.7%, to \$9,722.1 million as compared to \$9,987.1 million for the corresponding period last year.

The decrease in revenue for the three months ended June 30, 2022 was primarily attributable to a decrease in our Americas segment of \$161.5 million and a decrease in our International segment of \$5.1 million, as discussed further below.

The decrease in revenue for the nine months ended June 30, 2022 was primarily attributable to a decrease in our Americas segment of \$323.7 million, offset by an increase in our International segment of \$58.5 million, as discussed further below.

In the course of providing our services, we routinely subcontract for services and incur other direct costs on behalf of our clients. These costs are passed through to clients and, in accordance with industry practice and GAAP, are included in our revenue and cost of revenue. Because these pass-through revenues can change significantly from project to project and period to period, changes in revenue may not be indicative of business trends. Pass-through revenues for the quarters ended June 30, 2022 and 2021 were \$1.7 billion and \$1.9 billion, respectively. Pass-through revenues for the nine months ended June 30, 2022 and 2021 were \$5.0 billion and \$5.4 billion, respectively. Pass-through revenue as a percentage of revenue was 52% and 55% during the three months ended June 30, 2022 and 2021, respectively. Pass-through revenue as a percentage of revenue, was 51% and 54% during the nine months ended June 30, 2022 and 2021, respectively.

Gross Profit

Our gross profit for the three months ended June 30, 2022 increased \$18.9 million, or 9.4%, to \$220.5 million as compared to \$201.6 million for the corresponding period last year. For the three months ended June 30, 2022, gross profit, as a percentage of revenue, increased to 6.8% from 5.9% in the three months ended June 30, 2021.

Our gross profit for the nine months ended June 30, 2022 increased \$49.5 million, or 8.5%, to \$630.7 million as compared to \$581.2 million for the corresponding period last year. For the nine months ended June 30, 2022, gross profit, as a percentage of revenue, increased to 6.5% from 5.8% in the nine months ended June 30, 2021.

Gross profit changes were due to the reasons noted in Americas and International reportable segments below.

Equity in Earnings of Joint Ventures

Our equity in earnings of joint ventures for the three months ended June 30, 2022 was \$7.5 million as compared to \$8.2 million in the corresponding period last year.

Our equity in earnings of joint ventures for the nine months ended June 30, 2022 was \$27.4 million as compared to \$23.6 million in the corresponding period last year.

The increase in earnings of joint ventures for the nine months ended June 30, 2022 compared to the same period in the prior year were primarily due to increased earnings in our AECOM Capital segment compared to the prior year.

General and Administrative Expenses

Our general and administrative expenses for the three months ended June 30, 2022 decreased \$3.5 million, or 9.6%, to \$32.8 million as compared to \$36.3 million for the corresponding period last year. For the three months ended June 30, 2022 and 2021, general and administrative expenses, as a percentage of revenue, remained unchanged at 1.0%.

Our general and administrative expenses for the nine months ended June 30, 2022 decreased \$4.3 million, or 3.9%, to \$106.4 million as compared to \$110.7 million for the corresponding period last year. For the nine months ended June 30, 2022 and 2021, general and administrative expenses, as a percentage of revenue, remained unchanged at 1.1%.

Restructuring Costs

In the second quarter of fiscal 2022, we exited our business in Russia, and we incurred restructuring expenses related to asset impairment charges, personnel and real estate costs. We also incurred approximately \$19.5 million of expenses resulting from the reclassification of other comprehensive income into earnings of our cumulative translation adjustment related to Russian ruble. During the three and nine months ended June 30, 2022, we incurred restructuring expenses of \$12.2 million and \$88.9 million, respectively, primarily related to costs associated with our previously announced actions to exit our Russia-related businesses, improve margins and deliver efficiencies that result in a more agile organization.

Other Income

Our other income for the three months ended June 30, 2022 decreased to \$4.3 million from \$4.5 million for the corresponding period last year.

Our other income for the nine months ended June 30, 2022 decreased to \$10.5 million from \$11.9 million for the corresponding period last year.

Other income is primarily comprised of interest income and net periodic pension adjustments.

Interest Expense

Our interest expense for the three months ended June 30, 2022 was \$27.4 million as compared to \$149.0 million for the corresponding period last year.

Our interest expense for the nine months ended June 30, 2022 was \$77.0 million as compared to \$212.5 million for the corresponding period last year.

The decreases in interest expense for the three and nine months ended June 30, 2022 were primarily due to a \$117.5 million prepayment premium recognized in interest expense for the three months ended June 30, 2021 that did not repeat in 2022.

Income Tax Expense

Our income tax expense for the three months ended June 30, 2022 was \$44.5 million as compared to tax benefit of \$17.8 million in the corresponding period last year. The increase in tax expense for the current period compared to the corresponding period last year was due primarily to the tax impacts of an increase in overall pre-tax income of \$143.9 million and a tax benefit of \$25.9 million recorded in the third quarter of fiscal 2021 related to a corporate tax rate change in the United Kingdom, partially offset by tax expense of \$13.2 million due to a partial settlement of an audit in the U.S recorded in the third quarter of fiscal 2021.

Our income tax expense for the nine months ended June 30, 2022 was \$103.1 million as compared to \$42.9 million in the corresponding period last year. The increase in tax expense for the current period compared to the corresponding period last year is due primarily to the tax impacts of an increase in overall pre-tax income of \$137.6 million, a tax benefit of \$25.9 million recorded in the third quarter of fiscal 2021 related to a corporate tax rate change in the United Kingdom, an increase in tax expense of \$13.0 million related to changes in foreign uncertain tax positions, an increase in tax expense of \$7.2 million related to nondeductible costs, an increase in tax expense of \$7.1 million related to foreign residual income, partially offset by an increase in tax benefit of \$13.8 million related to changes in valuation allowances, and tax expense of \$13.2 million due to a partial settlement of an audit in the U.S. recorded in the third quarter of fiscal 2021.

During the first quarter of fiscal 2022, valuation allowances in the amount of \$21.9 million primarily related to net operating losses in certain foreign entities were released due to sufficient positive evidence obtained during the quarter. The positive evidence included a realignment of our global transfer pricing methodology that was implemented during the quarter which resulted in forecasting the utilization of the net operating losses within the foreseeable future.

During the second quarter of fiscal 2022, valuation allowances in the amount of \$6.4 million on the net deferred tax assets of our Russia business were recorded due to exiting all our business operations in Russia. It is now more likely than not the net deferred tax assets will not be realized.

During the third quarter of fiscal 2021, the United Kingdom enacted a corporate tax rate increase from 19% to 25% beginning April 2023 requiring deferred tax assets and liabilities to be remeasured. The remeasurement resulted in a \$25.9 million tax benefit.

During the third quarter of fiscal 2021, we partially settled our U.S. federal audit for fiscal 2015 and 2016 and recorded tax expense of \$13.2 million due primarily to changes in tax attributes.

We regularly integrate and consolidate our business operations and legal entity structure, and such internal initiatives could impact the assessment of uncertain tax positions, indefinite reinvestment assertions and the realizability of deferred tax assets.

Net Loss From Discontinued Operations

During the first quarter of fiscal 2020, management approved a plan to dispose via sale our self-perform at-risk construction businesses. As a result of these strategic actions, the self-perform at-risk construction businesses were classified as discontinued operations. That classification was applied for all periods presented.

Net loss from discontinued operations was \$3.5 million for the three months ended June 30, 2022 and net loss was \$15.4 million for the three months ended June 30, 2021, a decrease of \$11.9 million. The decrease in net loss from discontinued operations for the three months ended June 30, 2022 was primarily due to losses recorded on our oil and gas business in the third quarter of fiscal 2021 that did not recur in fiscal 2022.

Net loss from discontinued operations was \$71.5 million for the nine months ended June 30, 2022 and net loss was \$119.1 million for the nine months ended June 30, 2021, a decrease of \$47.6 million. The decrease in net loss from discontinued operations for the nine months ended June 30, 2022 was primarily due to losses recorded on the sales of our power business and our civil infrastructure businesses in the first half of fiscal 2021 that did not recur in fiscal 2022, partially offset by a \$3.0 million gain on sale, net of transaction costs, of our oil and gas construction business and losses recorded in the first half of fiscal 2022 of \$43.9 million related to revisions of estimates for our working capital obligation to be paid and contingent consideration receivable related to the civil infrastructure business.

Net Income Attributable to AECOM

The factors described above resulted in net income attributable to AECOM of \$101.9 million and \$205.0 million for the three and nine months ended June 30, 2022 as compared to net income attributable to AECOM of \$11.5 million and \$77.0 million for the three and nine months ended June 30, 2021.

Revenue

Revenue for our Americas segment for the three months ended June 30, 2022 decreased \$161.5 million, or 6.2%, to \$2,457.0 million as compared to \$2,618.5 million for the corresponding period last year.

Revenue for our Americas segment for the nine months ended June 30, 2022 decreased \$323.7 million, or 4.2%, to \$7,320.4 million as compared to \$7,644.1 million for the corresponding period last year.

The decreases in revenue for the three and nine months ended June 30, 2022 were primarily driven by a decrease in pass-through revenues primarily in our construction management business for high-rise buildings in New York City as well as changes in foreign exchange rates.

Gross Profit

Gross profit for our Americas segment for the three months ended June 30, 2022 increased \$4.1 million, or 2.6%, to \$164.7 million as compared to \$160.6 million for the corresponding period last year. As a percentage of revenue, gross profit increased to 6.7% of revenue for the three months ended June 30, 2022 from 6.1% in the corresponding period last year.

Gross profit for our Americas segment for the nine months ended June 30, 2022 increased \$17.8 million, or 3.9%, to \$475.1 million as compared to \$457.3 million for the corresponding period last year. As a percentage of revenue, gross profit increased to 6.5% of revenue for the nine months ended June 30, 2022 from 6.0% in the corresponding period last year.

The increases in gross profit for the three and nine months ended June 30, 2022 were primarily due to a more efficient execution, reduction in real estate costs, and investments in enterprise capability centers, shared service centers, and digital solutions. In addition, underlying revenue excluding pass-through revenues increased.

Revenue

Revenue for our International segment for the three months ended June 30, 2022 decreased \$5.1 million, or 0.6%, to \$784.2 million as compared to \$789.3 million for the corresponding period last year.

Revenue for our International segment for the nine months ended June 30, 2022 increased \$58.5 million, or 2.5%, to \$2,399.9 million as compared to \$2,341.4 million for the corresponding period last year.

The decrease in revenue for the three months ended June 30, 2022 was primarily due to adverse changes in foreign exchange rates partially offset by revenue growth excluding the impact of foreign exchange rates. The increase in revenue for the nine months ended June 30, 2022 was primarily attributable to increased growth in Middle East, India, and Asia compared to the prior year.

Gross Profit

Gross profit for our International segment for the three months ended June 30, 2022 increased \$14.9 million, or 36.9%, to \$55.3 million as compared to \$40.4 million for the corresponding period last year. As a percentage of revenue, gross profit increased to 7.1% of revenue for the three months ended June 30, 2022 from 5.1% in the corresponding period last year.

Gross profit for our International segment for the nine months ended June 30, 2022 increased \$31.5 million, or 25.8%, to \$153.8 million as compared to \$122.3 million for the corresponding period last year. As a percentage of revenue, gross profit increased to 6.4% of revenue for the nine months ended June 30, 2022 from 5.2% in the corresponding period last year.

The increases in gross profit and gross profit as a percentage of revenue for the three and nine months ended June 30, 2022 were primarily due to an increase in revenue and reduced costs resulting from investments in enterprise capability centers, shared service centers, and digital solutions, and more efficient operational execution.

Seasonality

We experience seasonal trends in our business. The first quarter of our fiscal year (October 1 to December 31) is typically our weakest quarter. The harsher weather conditions impact our ability to complete work in parts of North America and the holiday season

schedule affects our productivity during this period. Our revenue is typically higher in the last half of the fiscal year. Many U.S. state governments with fiscal years ending on June 30 tend to accelerate spending during their first quarter, when new funding becomes available. In addition, we find that the U.S. federal government tends to authorize more work during the period preceding the end of our fiscal year, September 30. Further, our construction management revenue typically increases during the high construction season of the summer months. Within the United States, as well as other parts of the world, our business generally benefits from milder weather conditions in our fiscal fourth quarter, which allows for more productivity from our on-site civil services. For these reasons, coupled with the number and significance of client contracts commenced and completed during a period, as well as the time of expenses incurred for corporate initiatives, it is not unusual for us to experience seasonal changes or fluctuations in our quarterly operating results.

Liquidity and Capital Resources

Cash Flows

Our principal sources of liquidity are cash flows from operations, borrowings under our credit facilities, and access to financial markets. Our principal uses of cash are operating expenses, capital expenditures, working capital requirements, acquisitions, repurchases of common stock, dividend payments, and refinancing or repayment of debt. We believe our anticipated sources of liquidity including operating cash flows, existing cash and cash equivalents, borrowing capacity under our revolving credit facility and our ability to issue debt or equity, if required, will be sufficient to meet our projected cash requirements for at least the next twelve months. We expect to spend approximately \$40 million to \$50 million in restructuring costs in fiscal 2022 associated with our previously announced restructuring actions that are expected to deliver continued margin improvement and efficiencies and the exit of our Russia-related businesses.

Generally, we do not provide for U.S. taxes or foreign withholding taxes on gross book-tax basis differences in our non-U.S. subsidiaries because such basis differences are able to and intended to be reinvested indefinitely. At June 30, 2022, we have determined that we will continue to indefinitely reinvest the earnings of some foreign subsidiaries and therefore we will continue to account for these undistributed earnings based on our existing accounting under ASC 740 and not accrue additional tax. Determination of the amount of any unrecognized deferred income tax liability on this temporary difference is not practicable because of the complexities of the hypothetical calculation. Based on the available sources of cash flows discussed above, we anticipate we will continue to have the ability to permanently reinvest these remaining amounts.

At June 30, 2022, cash and cash equivalents, including cash and cash equivalents included in current assets held for sale, were \$1,011.9 million, a decrease of \$222.9 million, or 18.1%, from \$1,234.8 million at September 30, 2021. The decrease in cash and cash equivalents was primarily attributable to \$417.9 million of cash used to repurchase common stock of which \$367.9 million was under the existing Board repurchase authorization.

Net cash provided by operating activities was \$398.1 million for the nine months ended June 30, 2022 as compared to \$386.6 million for the nine months ended June 30, 2021. The change was primarily attributable to an increase in cash provided by working capital of approximately \$124.4 million, partially driven by a 3-day improvement in days sales outstanding from prior year, and an increase in net income of approximately \$125.0 million, offset by a decrease in adjustments for non-cash items of approximately \$237.9 million. The improvement in operating cash flow was also partly offset by a net unfavorable year over year impact of \$7.5 million due to the sale of our oil and gas construction business in the current fiscal year and the sales of our power construction and civil construction businesses in fiscal 2021. The sale of trade receivables to financial institutions included in operating cash flows decreased \$34.1 million during the nine months ended June 30, 2022 compared to the nine months ended June 30, 2021. We expect to continue to sell trade receivables in the future as long as the terms continue to remain favorable to us.

Net cash used in investing activities was \$121.6 million for the nine months ended June 30, 2022, as compared to \$401.7 million for the nine months ended June 30, 2021. Cash used in investing activities decreased primarily due to a \$223.6 million decrease in cash disposed as a result of the sales of discontinued operations.

Net cash used in financing activities was \$495.9 million for the nine months ended June 30, 2022 as compared to \$754.9 million for the nine months ended June 30, 2021. The decrease was primarily attributable to decreased stock repurchases under the Stock Repurchase Program. Total borrowings under our credit agreement may vary during the period as we regularly draw and repay amounts to fund working capital.

Working Capital

Working capital, or current assets less current liabilities, decreased \$321.0 million, or 49.2%, to \$330.8 million at June 30, 2022 from \$651.8 million at September 30, 2021. Net accounts receivable and contract assets, net of contract liabilities, decreased to \$2,823.4 million at June 30, 2022 from \$2,929.9 million at September 30, 2021.

Days Sales Outstanding (DSO), which includes net accounts receivable and contract assets, net of contract liabilities, was 76 days at June 30, 2022 compared to 76 days at September 30, 2021.

In Note 4, Revenue Recognition, in the notes to our consolidated financial statements, a comparative analysis of the various components of accounts receivable is provided. Except for claims, substantially all contract assets are expected to be billed and collected within twelve months.

Contract assets related to claims are recorded only if it is probable that the claim will result in additional contract revenue and if the amount can be reliably estimated. In such cases, revenue is recorded only to the extent that contract costs relating to the claim have been incurred. Award fees in contract assets are accrued only when there is sufficient information to assess contract performance. On contracts that represent higher than normal risk or technical difficulty, award fees are generally deferred until an award fee letter is received.

Because our revenue depends to a great extent on billable labor hours, most of our charges are invoiced following the end of the month in which the hours were worked, the majority usually within 15 days. Other direct costs are normally billed along with labor hours. However, as opposed to salary costs, which are generally paid on either a bi-weekly or monthly basis, other direct costs are generally not paid until payment is received (in some cases in the form of advances) from the customers.

Credit Agreement

On February 8, 2021, we entered into the 2021 Refinancing Amendment to the Credit Agreement (the “Credit Agreement”), pursuant to which we amended and restated our Syndicated Credit Facility Agreement, dated as of October 17, 2014 (as amended prior to February 8, 2021, the “Original Credit Agreement”), between the Company, as borrower, Bank of America, N.A., as administrative agent, and other parties thereto. At the time of amendment, the Credit Agreement consisted of a \$1,150,000,000 revolving credit facility (the “Revolving Credit Facility”) and a \$246,968,737.50 term loan A facility (the “Term A Facility,” together with the Revolving Credit Facility, the “Credit Facilities”), each of which mature on February 8, 2026. The outstanding loans under

the Term A Facility were borrowed in U.S. dollars. Loans under the Revolving Credit Facility may be borrowed, and letters of credit thereunder may be issued, in U.S. dollars or certain foreign currencies. The proceeds of the Revolving Credit Facility may be used from time to time for ongoing working capital and for other general corporate purposes. The proceeds of the Revolving Credit Facility and the Term A Loan facility borrowed on February 8, 2021 were used to refinance the existing revolving credit facility and the existing term loan facility under the Original Credit Agreement and to pay related fees and expenses. The Credit Agreement permits us to designate certain of its subsidiaries as additional co-borrowers from time to time. Currently, there are no co-borrowers under the Credit Facilities.

The applicable interest rate under the Credit Agreement is calculated at a per annum rate equal to, at our option, (a) the Eurocurrency Rate (as defined in the Credit Agreement) plus an applicable margin (the “LIBOR Applicable Margin”), which is currently at 1.2250% or (b) the Base Rate (as defined in the Credit Agreement) plus an applicable margin (the “Base Rate Applicable Margin” and together with the LIBOR Applicable Margin, the “Applicable Margins”), which is currently at 0.2250%. The Credit Agreement includes certain environmental, social and governance (ESG) metrics relating to our CO² emissions and our percentage of employees who identify as women (each, a “Sustainability Metric”). The Applicable Margins and the commitment fees for the Revolving Credit Facility will be adjusted on an annual basis based on our achievement of preset thresholds for each Sustainability Metric. The Credit Agreement contains provisions addressing the end of the use of LIBOR as a benchmark rate of interest and a mechanism for determining an alternative benchmark rate of interest. When the provisions are triggered, LIBOR would be replaced by a secured overnight financing rate (SOFR)-based rate, which will be subject to a spread adjustment which may be positive, negative or zero.

Some of our material subsidiaries (the “Guarantors”) have guaranteed the obligations of the borrowers under the Credit Agreement, subject to certain exceptions. The borrowers’ obligations under the Credit Agreement are secured by a lien on substantially all of our assets and our Guarantors’ assets, subject to certain exceptions.

The Credit Agreement contains customary negative covenants that include, among other things, limitations on our ability and certain of our subsidiaries, subject to certain exceptions, to incur liens and debt, make investments, dispositions, and restricted payments, change the nature of their business, consummate mergers, consolidations and the sale of all or substantially all of their respective assets, taken as a whole, and transact with affiliates. We are also required to maintain a consolidated interest coverage ratio of at least 3.00 to 1.00 and a consolidated leverage ratio of less than or equal to 4.00 to 1.00 (subject to certain adjustments in connection with permitted acquisitions), tested on a quarterly basis (the “Financial Covenants”). Our consolidated leverage ratio was 2.30 to 1.00 at June 30, 2022. As of June 30, 2022, we were in compliance with the covenants of the Credit Agreement.

The Credit Agreement contains customary affirmative covenants, including, among other things, compliance with applicable law, preservation of existence, maintenance of properties and of insurance, and keeping proper books and records. The Credit Agreement contains customary events of default, including, among other things, nonpayment of principal, interest or fees, cross-defaults to other debt, inaccuracies of representations and warranties, failure to perform covenants, events of bankruptcy and insolvency, change of control and unsatisfied judgments, subject in certain cases to notice and cure periods and other exceptions.

On April 13, 2021, we entered into Amendment No. 10 to the Credit Agreement, pursuant to which the lenders thereunder provided a secured term “B” credit facility (the “Term B Facility”) to the Company in an aggregate principal amount of \$700,000,000. The Term B Facility matures on April 13, 2028. The proceeds of the Term B Facility were used to fund the purchase price, fees and expenses in connection with our cash tender offer to purchase up to \$700,000,000 aggregate purchase price (not including any accrued and unpaid interest) of our outstanding 5.875% Senior Notes due 2024.

The Term B Facility is subject to the same affirmative and negative covenants and events of default as the Term A Facility previously incurred pursuant to the existing Credit Agreement (except that the Financial Covenants in the Credit Agreement do not apply to the Term B Facility). The applicable interest rate for the Term B Facility is calculated at a per annum rate equal to, at our option, (a) the Eurocurrency Rate (as defined in the Credit Agreement) plus 1.75% or (b) the Base Rate (as defined in the Credit Agreement) plus 0.75%.

On June 25, 2021, we entered into Amendment No. 11 to the Credit Agreement, pursuant to which the lenders thereunder have provided us with an additional \$215,000,000 in aggregate principal amount under the Term A Facility. We used the net proceeds from the increase in the Term A Facility (together with cash on hand), to (i) redeem all of our remaining 5.875% Senior Notes due 2024 and (ii) pay fees and expenses related to such redemption.

At June 30, 2022 and September 30, 2021, letters of credit totaled \$4.5 million and \$5.2 million, respectively, under our Revolving Credit Facility. As of June 30, 2022 and September 30, 2021, we had \$1,145.5 million and \$1,144.8 million, respectively, available under our Revolving Credit Facility.

2027 Senior Notes

On February 21, 2017, we completed a private placement offering of \$1,000,000,000 aggregate principal amount of our unsecured 5.125% Senior Notes due 2027 (the “2027 Senior Notes”). On June 30, 2017, we completed an exchange offer to exchange the unregistered 2027 Senior Notes for registered notes, as well as related guarantees.

As of June 30, 2022, the estimated fair value of the 2027 Senior Notes was approximately \$935.0 million. The fair value of the 2027 Senior Notes as of June 30, 2022 was derived by taking the mid-point of the trading prices from an observable market input (Level 2) in the secondary bond market and multiplying it by the outstanding balance of the 2027 Senior Notes. Interest is payable on the 2027 Senior Notes at a rate of 5.125% per annum. Interest on the 2027 Senior Notes is payable semi-annually on March 15 and September 15 of each year, commencing on September 15, 2017. The 2027 Senior Notes will mature on March 15, 2027.

At any time and from time to time prior to December 15, 2026, we may redeem all or part of the 2027 Senior Notes, at a redemption price equal to 100% of their principal amount, plus a “make whole” premium as of the redemption date, and accrued and unpaid interest to the redemption date. On or after December 15, 2026, we may redeem all or part of the 2027 Senior Notes at a redemption price equal to 100% of their principal amount, plus accrued and unpaid interest to the redemption date.

The indenture pursuant to which the 2027 Senior Notes were issued contains customary events of default, including, among other things, payment default, exchange default, failure to provide notices thereunder and provisions related to bankruptcy events. The indenture also contains customary negative covenants.

We were in compliance with the covenants relating to the 2027 Senior Notes as of June 30, 2022.

Other Debt

Other debt consists primarily of obligations under finance leases and loans and unsecured credit facilities.

Effective Interest Rate

Our average effective interest rate on our total debt, including the effects of the interest rate swap agreements, during the nine months ended June 30, 2022 and 2021 was 3.4% and 4.7%, respectively.

Interest expense in the consolidated statements of operations included amortization of deferred debt issuance costs for the three and nine months ended June 30, 2022 of \$1.2 million and \$3.7 million, respectively, and for the three and nine months ended June 30, 2021 of \$4.6 million and \$9.0 million, respectively.

Other Commitments

We enter into various joint venture arrangements to provide architectural, engineering, program management, construction management and operations and maintenance services. The ownership percentage of these joint ventures is typically representative of the work to be performed or the amount of risk assumed by each joint venture partner. Some of these joint ventures are considered variable interest entities. We have consolidated all joint ventures for which we have control. For all others, our portion of the earnings is recorded in equity in earnings of joint ventures. See Note 5, Joint Ventures and Variable Interest Entities, in the notes to our consolidated financial statements.

Other than normal property and equipment additions and replacements, expenditures to further the implementation of our various information technology systems, commitments under our incentive compensation programs, amounts we may expend to repurchase stock under our stock repurchase program and acquisitions from time to time and disposition costs, we currently do not have any significant capital expenditures or outlays planned except as described below. However, if we acquire additional businesses in the future or if we embark on other capital-intensive initiatives, additional working capital may be required.

Under our secured revolving credit facility and other facilities discussed in Other Debt and Other Items above, as of June 30, 2022, there was approximately \$645.4 million, including both continuing and discontinued operations, outstanding under standby letters of credit primarily issued in connection with general and professional liability insurance programs and for contract performance

guarantees. For those projects for which we have issued a performance guarantee, if the project subsequently fails to meet guaranteed performance standards, we may either incur significant additional costs or be held responsible for the costs incurred by the client to achieve the required performance standards.

We recognized on our balance sheet the funded status of our pension benefit plans, measured as the difference between the fair value of plan assets and the projected benefit obligation. At June 30, 2022, our defined benefit pension plans had an aggregate deficit (the excess of projected benefit obligations over the fair value of plan assets) of approximately \$285.7 million. The total amounts of employer contributions paid for the nine months ended June 30, 2022 were \$6.8 million for U.S. plans and \$18.2 million for non-U.S. plans. Funding requirements for each plan are determined based on the local laws of the country where such plan resides. In some countries, the funding requirements are mandatory while in other countries, they are discretionary. There is a required minimum contribution for one of our domestic plans; however, we may make additional discretionary contributions. In the future, such pension funding may increase or decrease depending on changes in the levels of interest rates, pension plan performance and other factors. In addition, we have collective bargaining agreements with unions that require us to contribute to various third-party multiemployer plans that we do not control or manage. For the year ended September 30, 2021, we contributed \$3.7 million to multiemployer pension plans.

Contractual Obligations

Refer to our Annual Report on Form 10-K for the year ended September 30, 2021 for a discussion of our contractual obligations. There have been no changes, outside of the ordinary course of business, to these contractual obligations during the nine months ended June 30, 2022.

Condensed Combined Financial Information

The 2027 Senior Notes are fully and unconditionally guaranteed on a joint and several basis by some of AECOM's directly and indirectly 100% owned subsidiaries (the Subsidiary Guarantors). Accordingly, AECOM became subject to the requirements of Rule 3-10 of Regulation S-X, as amended, regarding financial statements of guarantors and issuers of guaranteed securities. Other than customary restrictions imposed by applicable statutes, there are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to AECOM in the form of cash dividends, loans or advances.

The following tables present condensed combined summarized financial information for AECOM and the Subsidiary Guarantors. All intercompany balances and transactions are eliminated in the presentation of the combined financial statements. Amounts provided do not represent our total consolidated amounts as of June 30, 2022 and September 30, 2021, and for the nine months ended June 30, 2022.

New Accounting Pronouncements and Changes in Accounting

For information regarding recent accounting pronouncements, see Notes to Consolidated Financial Statements included in Part I, Item 1.

Critical Accounting Policies and Estimates

Our accounting policies often require management to make significant estimates and assumptions using information available at the time the estimates are made. Such estimates and assumptions significantly affect various reported amounts of assets, liabilities, revenues and expenses. If future experience differs significantly from these estimates and assumptions, our results of operations and financial condition could be affected.

The Notes to Consolidated Financial Statements in Part II, Item 8 of the 2021 Form 10-K, and “Critical Accounting Policies and Estimates” in Part II, Item 7 of the 2021 Form 10-K describe the significant accounting policies and estimates used in the preparation of our consolidated financial statements. We have not materially changed our estimation methodology since the 2021 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Financial Market Risks

Financial Market Risks

We are exposed to market risk, primarily related to foreign currency exchange rates and interest rate exposure of our debt obligations that bear interest based on floating rates. We actively monitor these exposures. Our objective is to reduce, where we deem appropriate to do so, fluctuations in earnings and cash flows associated with changes in foreign exchange rates and interest rates. In order to accomplish this objective, we sometimes enter into derivative financial instruments, such as forward contracts and interest rate hedge contracts. It is our policy and practice to use derivative financial instruments only to the extent necessary to manage our exposures. We do not use derivative financial instruments for trading purposes.

Foreign Exchange Rates

We are exposed to foreign currency exchange rate risk resulting from our operations outside of the U.S. We use foreign currency forward contracts from time to time to mitigate foreign currency risk. We limit exposure to foreign currency fluctuations in most of our contracts through provisions that require client payments in currencies corresponding to the currency in which costs are incurred. As a result of this natural hedge, we generally do not need to hedge foreign currency cash flows for contract work performed. The functional currency of our significant foreign operations is the respective local currency.

Interest Rates

Our Credit Agreement and other debt obligations are subject to variable rate interest which could be adversely affected by an increase in interest rates. As of June 30, 2022 and September 30, 2021, we had \$1,147.8 million and \$1,155.3 million, respectively, in outstanding borrowings under our term credit agreements and revolving credit facility. Interest on amounts borrowed under these agreements is subject to adjustment based on specified levels of financial performance. The applicable margin that is added to the borrowing's base rate can range from 0.25% to 1.00% and the applicable margin that is added to borrowings in the eurocurrency rate can range from 1.25% to 2.00%. For the nine months ended June 30, 2022, our weighted average floating rate borrowings were \$1,402.7 million, or \$1,202.7 million excluding borrowings with effective fixed interest rates due to interest rate swap agreements. If short-term floating interest rates had increased by 1.00%, our interest expense for the nine months ended June 30, 2022 would have increased by \$9.0 million. We invest our cash in a variety of financial instruments, consisting principally of money market securities or other highly liquid, short-term securities that are subject to minimal credit and market risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on management's evaluation, with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), our CEO and CFO have concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), were effective as of June 30, 2022 to ensure that information required to be disclosed by us in this Quarterly Report on Form 10-Q or submitted under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the fiscal quarter ended June 30, 2022 identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As a government contractor, we are subject to various laws and regulations that are more restrictive than those applicable to non-government contractors. Intense government scrutiny of contractors' compliance with those laws and regulations through audits and investigations is inherent in government contracting; and from time to time, we receive inquiries, subpoenas, and similar demands related to our ongoing business with government entities. Violations can result in civil or criminal liability as well as suspension or debarment from eligibility for awards of new government contracts or option renewals.

We are involved in various investigations, claims and lawsuits in the normal conduct of our business. We are not always aware if we or our affiliates are under investigation or the status of such matters. Although the outcome of our legal proceedings cannot be predicted with certainty and no assurances can be provided, in the opinion of our management, based upon current information and discussions with counsel, with the exception of the matters noted in Note 15, Commitments and Contingencies, to the financial statements contained in this report to the extent stated therein, none of the investigations, claims and lawsuits in which we are involved is expected to have a material adverse effect on our consolidated financial position, results of operations, cash flows or our ability to conduct business. See Note 15, Commitments and Contingencies, to the financial statements contained in this report for a discussion of certain matters to which we are a party. The information set forth in such note is incorporated by reference into this Item 1. From time to time, we establish reserves for litigation when we consider it probable that a loss will occur.

Item 1A. Risk Factors

There have been no material changes to the risk factors as disclosed in Part I, Item 1A, Risk Factors in our most recent Annual Report on Form 10-K, other than as set forth below, which supplements the risk factors included in our most recent Annual Report on Form 10-K.

We cannot guarantee the timing, amount or payment of dividends.

Although our Board of Directors has adopted a dividend policy under which we intend to pay a regular quarterly cash dividend on our common stock, whether any such subsequent dividend (or any special dividend) is declared and the timing and amount thereof is subject to the discretion of our Board of Directors. Decisions of our Board of Directors in respect of dividends will be based on a variety of factors, including the cash flows, earnings and financial position of the Company as well as the borrowing availability and other restrictions under our outstanding indebtedness. We are not required to declare dividends and the number and amount of dividends is restricted under our outstanding indebtedness and could be restricted under future financing or other arrangements. Our Board of Directors will also regularly review and may modify or terminate our dividend policy. Accordingly, we cannot provide any assurances that we will pay quarterly or special cash dividends in the future, and if so, the amount or timing thereof. Any reduction in or elimination of our dividend policy or dividend payments could have a negative effect on the price of our common stock.

Our operations worldwide expose us to legal, political and economic risks in different countries as well as currency exchange rate fluctuations that could harm our business and financial results.

As discussed in more detail in the 2021 Form 10-K, political and economic instability, civil unrest, acts of terrorism, war, or other armed conflict can have a material adverse effect on our business. The conflict between Russia and Ukraine has resulted in the imposition by the U.S. and other nations of sanctions and other restrictive actions against Russia, Belarus and certain banks, companies and individuals. More generally, the conflict has led to and could lead to further disruptions in the global financial markets and economy, including, without limitation, currency volatility, inflation and instability in the global capital markets. In March 2022, the Company substantially completed its previously announced exit of all business operations in Russia. The impact of these government measures and our exit of our Russia-related businesses, as well as any further retaliatory actions taken by Russia and the U.S. and other nations, is currently unknown and could adversely affect our business, financial condition and results of operations.

Climate change and related environmental issues could have a material adverse impact on us.

Climate change related events, such as increased frequency and severity of storms, floods, wildfires, droughts, hurricanes, freezing conditions, and other natural disasters, may have a long-term impact on our business, financial condition and results of operation. While we seek to mitigate our business risks associated with climate change, we recognize that there are inherent climate related risks regardless of where we conduct our businesses. For example, a catastrophic natural disaster could negatively impact any of our office locations and the locations of our clients. Accordingly, a natural disaster has the potential to disrupt our and our clients'

businesses and may cause us to experience work stoppages, project delays, financial losses and additional costs to resume operations, including increased insurance costs or loss of cover, legal liability and reputational losses.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Stock Repurchase Program

On September 21, 2017, the Company's Board of Directors announced a capital allocation policy that authorized the repurchase of up to \$1.0 billion in AECOM common stock. Stock repurchases can be made through open market purchases or other methods, including pursuant to a Rule 10b5-1 plan. On November 13, 2020, the Board approved an increase in the Company's repurchase authorization to \$1.0 billion. On September 22, 2021, the Board approved another increase in the Company's repurchase authorization to \$1.0 billion. A summary of the repurchase activity for the three months ended June 30, 2022 is as follows:

| <u>Fiscal Period</u> | <u>Total Number of Shares Purchased</u> | <u>Average Price Paid Per Share</u> | <u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u> | <u>Maximum Approximate Dollar Value that May Yet Be Purchased Under the Plans or Programs</u> |

Rule 13a-14(a)/15d-14(a)**

I, Gaurav Kapoor, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of AECOM;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
